

4States QRP Group  
4S-Tuner

## Addendum:

On page 9 of the manual, the colors for LED1 and LED2 are incorrectly labeled. The colors are correct in the markup of the text shown below:

### **Semiconductors**

Note: The flat on the LED case or the short lead side should line up with the silk-screen line at the side of the mounting hole. If the flat is missing mark the short lead close to the LED dome before bending and cutting.

- ( ) 1 - LED1 ~~Green~~ **Red**
- ( ) 1 - LED2 ~~Red~~ **Green**
- ( ) 1 - Q1, 2N3904
- ( ) 1 - Q2, 2N3906
- ( ) 3 - D1, D2, D3 1N4148 Note Polarity
