

SS40 RX DUAL CRYSTAL SWITCH ARRANGEMENT.

THESE ARE X6, 7 AND 8.

I STOOD MINE UP VERTICALLY, SOLDERED ON THE BOARD, AND THEN CONNECTED THE SWITCH TO THE UPPER ENDS.

IF YOU LOOK AT THE SCHEMATIC, ALL THREE ARE PARALELL AS DRAWN.

PLEASE NOT THAT UNTIL THE SWITCH IS MOUNTED TO THE ENCLOSURE, THERE IS A LOT OF HAND CAPACITANCE.

Good luck
